# SUPPORTS ANATOMIQUES

## COLLIERS CERVICAUX

### 0401 CERVICAL COLLAR (LOW DENSITY)

Cervical collar made out of foamy material coated with cotton cloth. Height 9, 11 and 13 cm. Closes with hook & loop. Can be used during sleep.

References : Cervical pain, Cervical syndrome

SIZE:	S	M	L	XL	XXL
Neck perimeter (cm)	30-34	34-38	38-42	42-46	46-50

### 0411 RIGID SPLINT CERVICAL COLLAR

Cervical collar made out of foamy material with coated cotton fabric, polyethylene and reinforced splint that provides firm support. Closes with hook and loop.

References : Cervical spondyloarthropathy, Injuries and ruptures of the cervix.

SIZE:	S	M	L	XL	XXL
Neck perimeter (cm)	30-34	34-38	38-42	42-46	46-50

### 0405 ADJUSTED CERVICAL COLLAR UNDER-JAW SUPPORT

Polyethylene cervical collar with height adjustment and holes for ventilation of the neck area. It offers full stabilization of the neck and chin support. It is coated with artificial leather. Height 11-15cm. Closes with hook & loop.

References : Injuries and ruptures of the cervix, Cervical spondyloarthropathy, Cervical slipped disc, Torticollis, cervical support during therapy. Post-surgery use.

SIZE:	S	M	L	XL
Neck perimeter (cm)	30-34	34-38	38-42	42-46

### 0403 ADJUSTED CERVICAL COLLAR

Polyethylene cervical collar with height adjustment and holes for ventilation of the neck area. Coated with artificial leather. Height 8-13 cm. Closes with hook & loop.

References : Cervical spondyloarthropathy, Injuries and ruptures of the cervix.

SIZE:	S	M	L	XL
Neck perimeter (cm)	30-34	34-38	38-42	42-46

### 0404 "PHILADELPHIA" TYPE CERVICAL COLLAR

Philadelphia type cervical collar made out of Plastazote. Offers full stabilization of the cervix, excellent support of the occipital and chin and has a hole in the center in case of tracheotomy. Consists of two parts that close with hook & loop.

References : Injuries and ruptures of the cervix. Cervical pain. Cervical slipped disc. Post-surgery use.

SIZE:	S	M	L
Neck perimeter (cm)	27-34	34-41	41-48

## 0406 STIFNECK CERVICAL COLLAR

Plastic cervical narthex. Offers full immobilization of the cervix and has a hole in the center in case of tracheotomy. Height adjustment. Closes with two hook & loop straps.

References : Injuries and ruptures of the cervix. Cervical slipped disc, Torticollis, Problems with the cervix joints, Post-surgery use.

SIZE: ONE SIZE

## 0410 NECK PULLER

Mechanism made out of nickel and a cloth case. It is used for the therapy of chronic or severe cervical problems.

References : Cervical pain, Osteophytes, Cervical syndrome

SIZE: ONE SIZE

## CEINTURES LOMBAIRES

## 0152 WAIST BELT 21 cm 3152 WAIST BELT 30 cm

Elastic woven fabric belt with four underwires. Closes with hook & loop. Offers light support on the waist.

References : Lumbago, Sciatica, Muscle injuries, Hernia, Post surgery support

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

## 3043 BACK BELT WITH 4 UNDERWIRES

0043

Neoprene belt with interior cotton coating and 4 underwires in the waist area. Closes with hook and loop.

References: Severe Lumbago, Sciatica, Slipped disc, Back injuries, Muscle spasms, Post surgery use.

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

## 0154 "GOLD" WAIST BELT 21 cm 3154 "GOLD" WAIST BELT 30 cm

Elastic woven fabric belt with four underwires and two additional bandages at the waist area. Special design for movement facilitation. Closes with hook & loop.

References: Severe lumbago, Sciatica, Slipped disc, Back injuries, Muscle injuries, After surgery support.

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

**3044** "GOLD" N e WAIST BELT 21 CM

**2044** "GOLD" N e WAIST BELT 30 CM

0044

Neoprene belt with interior cotton coating, 4 underwires and two additional bandages in the waist area. It is anatomically designed to facilitate movement and reduce heat discomfort due to prolonged use. Closes with hook and loop.

References: Severe Lumbago, Sciatica, Slipped disk, Back injuries, Muscle spasms, After surgery support.

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

**0180** WAIST BELT

Elastic breathable weft-knitted fabric belt with net and 4 underwires and two additional bandages. Special design for better ventilation of the waist area.

References: Lumbago, Sciatica, Muscle injuries, hernia, Post surgery use .

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

**0187** WAIST BELT 21 cm

**3187** WAIST BELT 30 cm

Elastic breathable weft-knitted fabric ventilated belt with 4 underwires and two additional bandages at the waist area. Closes with hook and loop.

References: Severe Lumbago, Sciatica, Slipped disc, Back injuries, Muscle spasms, After surgery support

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

**0166** "GOLDTHWAITE"  
WAIST NARTHEX

Narthex made of strong elastic material and metallic support at the dorsal area. It has coating of air mesh and internal cotton coating. It offers very strong support to the spine and to the waist area.

References :Severe Lumbagos, Vertebra sliding, Severe back injuries, Spondylolisthesis, Post surgery use .

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

**0172** INDUSTRIAL BACK SUPPORT

Lumbar belt suitable for work, made of elastic breathable weft-knitted material. It has coated air mesh and internal cotton coating, two elastic support straps on the shoulders and four underwires. Its anatomical design facilitates movement towards. Closes with Velcro.

References : Assistance during work

SIZE:	S	M	L	XL	XXL
Waist perimeter (cm)	70-80	80-90	90-100	100-110	110-120

## ATTELLES DE DOIGTS

### 0501 THUMB NARTHEX

Narthex coated with foamy material and a plastic underwire and bandage for the immobilization of the thumb. Closes with hook & loop.

References: De Quervain syndrome, Arthritis, Tendonitis

SIZE:	S	M	L
Wrist perimeter (cm)	10-15	16-21	22-28

### 0502 THUMB NARTHEX

Narthex coated with foamy material, a metallic blade and a bandage for the immobilization of the thumb. Closes with hook & loop.

References: De Quervain syndrome, Arthritis, Tendonitis

SIZE:	S	M	L
Wrist perimeter (cm)	10-15	16-21	22-28

### 0509 NARTHEX FOR THE SUPPORT OF THE MIDDLE FINGER

Narthex for the support of the middle finger with foamy material and metallic blade. It has two bandages with hook and loop for greater immobilization.

References: Restoration of fingers phalanx fractures, ligament and tendon finger rupture, post surgery use

SIZE:	S	M	L
Wrist perimeter (cm)	10-15	16-21	22-28

### 0503 WRIST NARTHEX

Narthex coated with foamy material, a detachable metallic blade and two plastic underwires. Closes with hook & loop.

References: Wrist injuries. Wrist tube syndrom. Wrist fractures. Rehabilitation

SIZE:	Left & Right	S	M	L	XL
Wrist perimeter (cm)		10-13	14-17	18-22	23-28

### 0506 WRIST AND THUMB NARTHEX

Thumb supporting narthex with foamy material, a detachable metallic blade, two plastic underwires at the thumb and two straps with hook and loop for better immobilization.

References: De Quervain Syndrome, Arthritis, Tendonitis

SIZE:	Left & Right	S	M	L	XL
Wrist perimeter (cm)		10-13	14-17	18-22	23-28

## SUPPORTS ÉPAULES

### 0321 ARM SLING

Arm sling made of cotton fabric and height adjustable strap and pad on the shoulder for additional comfort and support of the thumb. Ideal for cases where the hand should remain stable at 90 degrees.

References: Simple shoulder dislocation, Post-surgery use.

SIZE:	S	M	L	XL
Elbow to thumb length (cm)	26-33	33-40	40-48	48-55

### 0320 SHOULDER IMMOBILIZER WITH STRAP

Shoulder immobilizer with strap. It is made of coated foamy material with one strap and buckles for height adjustment.

References: Shoulder blade fractures, Shoulder dislocation, Post-surgery use.

SIZE:	S	L
Elbow to wrist length (cm)	< 40 cm	> 40 cm

### 0324 FOREARM SLING

Forearm sling strap made of foamy material. Height adjustable. Assists the stabilization of the brachial and anti-brachial bones. Closes with hook and loop.

References : Immobilization and lift of the upper limbs, Fractures of the upper limbs

SIZE:	ONE SIZE
-------	----------

### 3080 SHOULDER SUPPORT

Neoprene shoulder support with cotton interior coating and elastic straps for better ventilation.

References: Arthritis, Tendonitis, Frozen shoulder, Recovery of shoulder dislocation, Post-surgery use

0080

SIZE:	S	M	L	XL
Brachium perimeter (cm)	24-28	28-32	32-38	38-44

### 0284 SHOULDER SUPPORT

Shoulder support made of coated foamy material and strap for better support and stability.

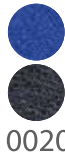

References: Arthritis, Tendonitis, Frozen shoulder, Recovery of shoulder dislocation, Post-surgery use.

SIZE:	S	M	L	XL
Brachium perimeter (cm)	24-28	28-32	32-38	38-44

## SUPPORTS GENOUX

### 3020 NEOPRENE KNEE SUPPORT

0020

Neoprene knee support with interior cotton coating that allows normal movement and offers good support. Specially designed to reduce heat discomfort due to prolonged use.

References: Mild knee pain, Prevention and assistance during sports , Post-surgery use.

SIZE:	S	M	L	XL	XXL
Knee perimeter (cm)	25-30	30-34	34-38	38-42	42-48

### 3021 NEOPRENE KNEE SUPPORT OPEN PATELLA

0021

Neoprene knee support with open patella and interior cotton coating that allows better movement of the knee joint. Specially designed to reduce heat discomfort due to prolonged use.

References: Mild knee pain, Prevention and assistance during sports , Post-surgery use.

SIZE:	S	M	L	XL	XXL
Knee perimeter (cm)	25-30	30-34	34-38	38-42	42-48

### 3022 BOOSTED NEOPRENE KNEE SUPPORT SPIRAL PLATES

0022

Neoprene knee support with open patella and interior cotton coating that allows better movement of the knee and reduces heat discomfort due to prolonged use. Specially designed with pillow, 4 spiral plates at the side and 2 bandages for better support.

References: Injuries of oblique joints, For cases of meniscus, Periods of rehabilitation, Prevention and assistance during sports and work.

SIZE:	S	M	L	XL	XXL
Knee perimeter (cm)	25-30	30-34	34-38	38-42	42-48

### 3023 BOOSTED KNEE SUPPORT METALLIC SUPPORT

0023

Neoprene knee support with open patella and interior cotton coating that allows better movement of the knee and reduces heat discomfort due to prolonged use. Specially designed with pillow, four metallic plates at the side and two bandages for better support.

References : Serious injuries, Rupture of anterior & posterior cross joint & rehabilitation cases.

SIZE:	S	M	L	XL	XXL
Knee perimeter (cm)	25-30	30-34	34-38	38-42	42-48

### 1506 OPEN KNEE SUPPORT WITH SPIRAL PLATES

Neoprene open knee support with open patella and spiral plates. Specially designed with 2 bandages for firm support. Closes with hook and loop.

References: Mild knee pain, Prevention and assistance during sports. Post-surgery use.

SIZE:	S	M	L	XL	XXL
Knee perimeter (cm)	25-30	30-34	34-38	38-42	42-48

## SUPPORTS GENOUX

### 7091 KNEE IMMOBILIZATION SPLINT

Knee immobilization splint made out of coated foamy material, five aluminum blades and five or six bandages (depending on the size) for better support.

References : Post-surgery use, Cast replacement, First aid, Knee immobilization

SIZE: ONE SIZE

Narthex height 40 cm & 60cm

### 7093 KNEE IMMOBILIZATION SPLINT

Open narthex from coated foamy material, three aluminum blades and three bandages for better support.

References: Post-surgery use, Cast replacement, First aid, Knee immobilization

SIZE: ONE SIZE

Narthex height 40 cm & 60cm

### 3019 NEOPRENE POST OP KNEE BRACE

0019

Neoprene post operation knee brace with interior cotton coating with open patella, side aluminum blades with multicentral joint and bend range of 0-120 degrees, from 0-30 degrees with a gradation of 10 and 15 degrees, and four bandages for better support.

References : Knee instability, Rupture of oblique joints, of anterior and posterior cross joint, Rehabilitation cases .

SIZE:	S	M	L	XL	XXL
Knee perimeter (cm)	25-30	30-34	34-38	38-42	42-48

### 2070 POST OP KNEE BRACE

Post op knee brace made of coated foamy material, side aluminum blades with multicentral joint and bend range of 0-120 degrees, from 0-30 degrees with a gradation of 10 and 15 degrees, and bandages for better support . Easy to put and adjust.

References : Prosurgery use in cases of rupture of joints and tendons, Post-surgery use in cases of rupture of oblique cross tendons and rupture of the quadriceps. Also for knee instability and for rehabilitation cases

SIZE: ONE SIZE

Narthex height 40 cm

### 2040 POST OP KNEE BRACE

Post operation knee brace made of coated foamy material, side aluminum blades with multicentral joint and bend range of 0-120 degrees, from 0-30 degrees with a gradation of 10 and 15 degrees, and bandages for better support . For therapy of fractures or in any case where you need to have movement control for the knee. Easy to put and adjust.

References : Pro-surgery use in cases of rupture of joints and tendons, Post-surgery use in cases of rupture of oblique cross tendons and rupture of the quadricep, Also for knee instability and for rehabilitation cases.

SIZE: ONE SIZE

Narthex height 40 cm & 60cm

## SUPPORTS CHEVILLES

### 3030 ANKLE SUPPORT

0030

Neoprene ankle support with cotton interior coating that reduces heat discomfort due to prolonged use. Hook and loop strap provides firm support.

References: Ankle twists, dislocations, Rehabilitation, prevention, Recovery.

SIZE:	S	M	L	XL	XXL
Ankle perimeter (cm)	19-22	22-25	25-28	28-31	31-34

### 0033 ANKLE SUPPORT WITH SILICON PAD

Neoprene ankle cap with interior coating and additional silicon plates that embrace the ankle bones. The continuous pressure increases blood circulation through the continuous massage and speeds up the absorption of hematomas, edemas and inflammations.

References: Twists, Ruptures, Problems with the tendon of Achilles, Recovery, Arthritis, Tendonitis.

SIZE:	S	M	L	XL	XXL
Ankle perimeter (cm)	19-22	22-25	25-28	28-31	31-34

### 0331 "MC DAVY" TYPE ANKLE SPLINT

Splint made of coated 3D fabric. On the right and on the left it has polyethylene supports and on the front it has cord for better stabilization and easier fitting.

References: Serious knee injuries, Ankle twists, Serious injuries of joints and tendons, Ruptures, Prevention, Recovery

SIZE:	S	M	L	XL
Ankle perimeter (cm)	19-22	22-26	26-30	30-34

### 0338 AIR ANKLE STIRRUP BRACE

Plastic brace with bandages for better stabilization and two cryotherapy gel coatings and an air chamber that is inflated with a pump for air regulation. It allows only extension and bending and completely excludes side movements.

References: Severe leg injuries, Twists, Ruptures, Ankle fractures, Post-surgery immobilization, Rehabilitation.

### 0337 ANKLE FOOT ORTHOSIS

Ankle plastic orthosis and bandage for better support.

References: Post surgery support, Fibula paresis

SIZE:	Left & Right	S	L
Shoe size		35-39	40-46

### 0347 DYNAMIC ANKLE ORTHOSIS (NIGHT SPLINT)

Ankle plastic orthosis and bandages for better support.

References: Post surgery support, Fibula paresis

SIZE:	S	M	L
Shoe size	35-38	39-42	43-46
